

THEME 4 HUMAN IN NATURE WRITING SKILL (UPLIFT)

A. Write the benefits of nature after reading the paragraph below.

Flowers, plants, animals, the sky, mountains, and other natural wonders and beauties bring many benefits to us. Watching the sunset over the sea, seeing the warm colours of autumn, walking in the green parks in spring, and smelling the fresh air help us feel happy. We also feel more peaceful and relaxed in nature, and all the things we need to survive come from this endless self-renewing resource. It freely provides us with the requirements for our survival, such as the air we breathe, the water we drink, and the food we eat. We should just take the time to look more closely at it and appreciate its beauty. The thing we can do for nature is to enjoy it and take care of it as much as possible because it meets the basic needs of life.

- 1.
- 2.
- 3.
- 4.

B. Write a paragraph about why we should protect nature.

C. Write what you can and cannot do as in the example.

e.g. I can speak English fluently, but I can't speak German.

D. Write mottos to protect nature.
